Virtual Golden Race

Golden Race virtual games allow users to place bets on virtual sports events 24 hours a day, 365 days a year. The offer includes 5 different sports with over 20 different competitions. Players have the opportunity to place a bet on one of the available competitions every minute and can follow them through live broadcasts. Statistics and tables with previous results are available for each match.

Golden Race's offerings consist of both scheduled events and on-demand games. In scheduled events, matches take place at pre-defined times, and players can place a bet on a match until the "stop betting" message appears on the screen (10 seconds before the match starts). On the other hand, on-demand games allow users to decide when the game will start.

Note: Within on-demand games, by clicking the "Skip Event" button, the player can change the event currently displayed, giving the user the option to choose which event they want to play.

Currently, the following virtual sports can be bet on within Golden Race virtual games:

- Virtual Football
- Greyhound Racing
- Horse Racing
- Cruiser Races
- Motor Racing

General Rules for Golden Race Virtual Games

It is possible to place a bet up to 10 seconds before the start of the selected event (match, race).

The minimum bet is 0.50 BAM per ticket. The maximum bet is 500.00 BAM per ticket. The maximum payout is 20,000.00 BAM.

It is possible to place a bet on events that do not belong to the same round.

All types of tickets are allowed (single, system, and regular tickets).

It is not possible to combine virtuals with other offerings (traditional betting, live betting, etc.).

Note: All matches can be watched through the integrated video stream in the web browser. You can follow the live stream of any ongoing match at any time. Match simulations are created using a combination of artificial intelligence and an independent random number generator.
